Brief about the product (maximum 100 words)

GREENWALL PVC Sheet Piles are ideal for carrying out work on river banks, near the sea and on environmental reclamation. They are highly economical and durable due to their flexibility and long service life which requires no maintenance. GREENWALL products are available in three basic Colors: Light Grey, Dark Grey, Green, Brown and Sand.

GreenWall has designed an innovative system called **Ultra Sealing**, with the help of which, a special gasket placed inside the interlock obtains important waterproofing parameters **Innovative Ultra Sealing system grant GreenWall PVC sheet pile an excellent permeability value , i.e. 8.803 E-12 permeability with a constant pressure tightness of about 2.1 Bar .**
